

# EVoline® V-Port

reddot design award  
winner 2015

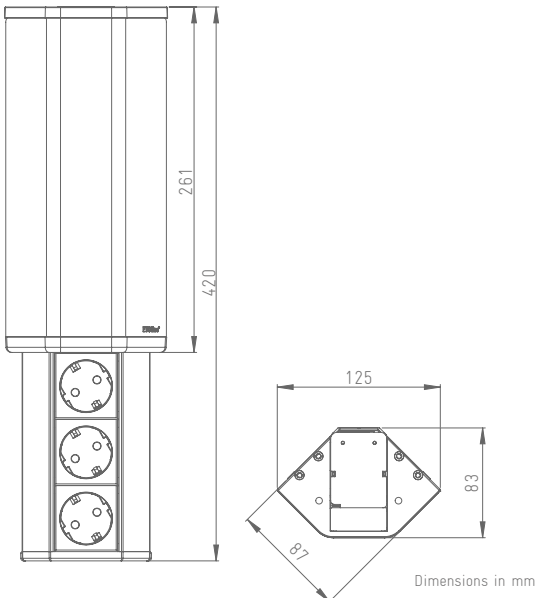

Connectivity for corners everywhere.

# EVoline® V-Port

In kitchens, you often find unused space underneath a wall cabinet, in corners and next to tall cupboards. This is where the EVoline V-Port can be installed.

In its closed position, the V-Port is concealed behind a discreet and elegant aluminium cover in stainless steel optics. A gentle touch releases a multiple socket rail. As option available with USB charger.
